SRM

SRM NEXUS VENTURES

CAPABILITY BRIEF / OCTOBER 2026

Practical AI.
Reliable workplace IT.

AI assistants, workflow automation, and workplace technology built around a clear business need, an agreed scope, and a documented handoff.

AI & AUTOMATION

Knowledge and workflow solutions

- RAG knowledge assistants and document retrieval
- Generative AI drafting and summarization
- MCP integrations with approved business tools
- AI agents and LangChain orchestration

WORKPLACE IT

Equipment and collaboration

- Laptop and desktop setup and deployment
- Video conferencing and meeting-room setup
- Monitors, docks, and peripherals
- Office networking and Wi-Fi setup

START WITH A FOCUSED PILOT

Choose one workflow or workplace requirement. Define deliverables, permitted access, milestones, and acceptance criteria before implementation.

01 / ASSESS

Findings and a recommended scope

02 / IMPLEMENT

A pilot or configured environment

03 / HAND OVER

Review findings and documentation
